

<https://github.com/Aatermisss/HAPL/tree/main/20240329>

The image shows a Jupyter Notebook interface with a dark theme. The title bar at the top reads "Untitled3.ipynb" with a star icon on the right. Below the title bar is a menu bar with options: "檔案", "編輯", "檢視畫面", "插入", "執行階段", "工具", "說明", and "已儲存所有變更". On the left side, there is a sidebar with icons for a menu, search, variables (showing {x}), keyboard shortcuts, and a file explorer. The main area contains a code cell with a play button icon and a "0 秒" (0 seconds) execution time indicator. The code in the cell is as follows:

```
a={'姓名': '賴宏璋', '性別': '男', '作業分數': [80, 95, 100, 90]}
a['學號'] = 'M1129020'
a['作業分數'][1] = 100
del a['作業分數'][0]
print(a)
b=list(a['作業分數'])
average=sum(b)/len(b)
print(b)
```

Below the code cell, the output is displayed:

```
{'姓名': '賴宏璋', '性別': '男', '作業分數': [100, 100, 90], '學號': 'M1129020'}
[100, 100, 90]
```
